Call the Digestive Health Associates Gastroenterologist on call at 231-360-2884 if you experience these difficulties after hours.

SCREENING COLONOSCOPY vs. DIAGNOSTIC COLONOSCOPY

If you were sent to one of our physicians for a “**Screening Colonoscopy**” or you have seen the provider and he/she recommends a colonoscopy, please read this form in its entirety. You need to be fully educated on the state and federal guidelines for reimbursement services.

The Centers for Medicare & Medicaid Services (CMS) “**Screening Initiatives**” passed in January, 2011 dictates that patients undergoing a “**screening colonoscopy**” will not be held to their coinsurance or deductible responsibilities.

The definition of a “**screening colonoscopy**” per CMS guidelines is as follows:

“A colonoscopy being performed on a patient who does not have any signs or symptoms in the lower GI anatomy PRIOR to the scheduled test.”

Any symptom such as change in bowel habits, diarrhea, constipation, bleeding, anemia, etc. prior to the procedure and noted as a symptom in your medical record may change your benefit from a screening to a diagnostic colonoscopy. We cannot change your medical record after you have been seen. We cannot change the fact that you have had symptoms prior to your procedure.

Please note: If you have had a colonoscopy within the last 10 years and the result indicated you had colon polyps, you may **NOT** be eligible for “screening initiative” benefits. You have a prior history of polyps. Your colonoscopy is now considered a “surveillance of the colon” and may be considered diagnostic. You may have been healthy and have had no symptoms since your last colonoscopy, but you have what is considered a pre-existing nature of polyps and therefore, are not eligible for a “screening”. If your colonoscopy has been over 10 years, you are eligible for a “screening colonoscopy” regardless of your history. ***It is your responsibility to know your insurance benefit. Please contact your insurance company with benefit questions prior to your procedure.***

Please be advised that if you are a true “screening colonoscopy” and during the procedure your doctor finds a polyp or tissue that has to be removed for pathological testing or if you are diagnosed with a GI problem, the procedure is no longer a “screening” but becomes “diagnostic”. Please be aware that any polyp that is found may be pre-cancerous and must be removed. Your insurance benefits may change. We make every effort to code correctly for your procedure with the correct modifiers and diagnoses. We make every effort to work with the facility to have the billing coded correctly, as well. The correct coding of a procedure is driven by the physician and your medical history. It is not dictated by your benefit or the insurance company.

**These guidelines are CMS requirements and DHA providers are unable to make exceptions.*

NOTICE OF PRIVACY POLICIES

I understand Digestive Health Associates of Northern Michigan, P.C.'s notice of privacy practices are available upon request and are also posted on the bulletin board in the waiting room of their office.

NO SHOW POLICY

We understand that situations arise in which you must cancel your appointment. It is therefore requested that if you must cancel your appointment you provide adequate notice. This will enable another person who is waiting for an appointment to be scheduled in that appointment slot. With cancelations made less than 24-48 hours notice, we are unable to offer that appointment slot to other people.

- Patients who fail to show for their scheduled office appointment or do not notify the office within 24 hours of their scheduled appointment time, shall be subject to a "No Show" penalty of \$50.00. In the event of an actual emergency and prior notice could not be given, consideration will be given - and an exception may be granted.
- Patients who fail to show for their scheduled procedure appointment or do not notify the office within 48 hours of their scheduled appointment time shall be subject to a "No Show" penalty of \$150.

We understand that special unavoidable circumstances may cause you to cancel within this time frame. Fees in this instance may be waived but only with management approval.

OWNERSHIP

Copper Ridge Surgery Center, LLC is a joint venture between a group of Traverse City physicians and Munson Medical Center to improve patient access to outpatient procedures in our community. COVID – 19 Patient Instructions

To protect patients and staff and to comply with current CDC guidelines, Copper Ridge Surgery Center (CRSC) is screening our patients and visitors for COVID - 19 symptoms upon entry to the facility.

Upon arrival, you will be requested to wear a fresh mask, provided to you by us. You will be asked to sanitize your hands and asked a series of questions about COVID – 19.

- Do you have a dry cough that is new?
- Do you have a sore throat?
- Are you experiencing shortness of breath?
- Have you had a fever?
- Do you have flu-like symptoms?
- Have you tested POSITIVE for COVID in the past?
- Have you been in close contact with someone who has tested positive in the last 10 days?

It is very important that, if you develop any of the above symptoms prior to your procedure, do NOT come to your appointment until you have contacted your physician for directions.

VISITORS:

We request that you only bring one (1) visitor with you who is healthy and not exhibiting the above symptoms. Your visitor/family member/driver will be asked to wait out in the vehicle for you. Although our lobby is arranged to assist with social distancing, we are asking that only patients wait there. Please provide our registration staff with a phone number for the driver and we will contact them with further instructions. Our restrooms are open and available for use as long as you have been through the COVID – 19 screening process.
