#### **COLONOSCOPY**

This procedure is a direct examination of the colon through a flexible lighted scope, which is inserted through the rectum. For the examination, you will lie on your left side for the passage of the scope. A lubricating jelly will be placed in the rectum to decrease discomfort. An intravenous catheter will be placed in one of your arms to administer sedative medications. Please advise the nurse if you are allergic to any medications.

The examination should take approximately 30-45 minutes. You should plan to remain in the outpatient treatment area until the medication effects have worn off partially. After the examination there is generally a temporary feeling of fullness in the colon, and air can be expelled through the rectum.

We require that you bring a driver. You should not drive or operate power machinery the day of the colonoscopy, as the medications may affect your judgment.

Listed below are the things you need to do to evacuate your colon prior to the test. Be sure to read the instructions.

**BEGIN CLEAR LIQUID DIET:** Starts the day before but varies according to your arrival time.

**ARRIVAL TIME BEFORE 1:00PM:** Clear liquid diet starts the entire day prior to your exam and continues up until 4 hours before your test.

**ARRIVAL TIME AFTER 1:00PM:** You may have a light breakfast before 8:00am (the day before the procedure), then begin a clear liquid diet. You may continue clear liquids up until 4 hours before your test.

\*It is very important to stay hydrated. Make sure that you drink plenty of clear liquids.

**CONSUME THE SUCLEAR SOLUTION:** It is split up into 2 separate doses. See below.

**FIRST DOSE: Starts at 6:00pm (the evening before the test).**

STEP 1: Pour the 6-ounce bottle of liquid oral solution into the 16-ounce glass / mixing container.

STEP 2: Add cool water to the 16-ounce Fill-Line on the glass and mix.

STEP 3: Drink all of the liquid in the glass. It is best to finish drinking the liquid within 20 minutes.

STEP 4: You must drink one more 16-ounce glass of water over the next 2 hours and at least one more 16-ounce glass of water before you go to bed.

**SECOND DOSE: Starts 5 hours prior to leaving your home (the day of your procedure).**

STEP 1: Remove the cap from the 2-liter container. Tear open one flavor pack of your choice and pour contents into the 2-liter container. Throw away unused packs. Solution can be taken with or without flavor packs.

STEP 2: Add water to the Fill-Line on the 2-liter container.

STEP 3: Replace the cap on the bottle and shake to dissolve the powder. The solution may be refrigerated or left out at room temperature. The solution should be used within 48 hours after mixing.

STEP 4: Drink one 16-ounce glass every 20 minutes. Be sure to drink all of the solution This should take about one and a half hours.

\*Mild nausea and abdominal fullness are expected with this preparation. If you experience severe nausea or vomiting, stop the preparation for 30 minutes to one hour, and then restart at the same rate as before. The bowel movements should eventually become clearer.

**TIPS FOR COLON PREPARATION:**

o Stay close to the bathroom.

o You may suck on a Brachs lemon drop (hard candy) to help rid the salty aftertaste.

o If your bottom gets sore from too much wiping, try putting Vaseline on the tender areas.

## SCREENING COLONOSCOPY vs. DIAGNOSTIC COLONOSCOPY

If you were sent to one of our physicians for a **"Screening Colonoscopy"** or you have seen the provider and he/she recommends a colonoscopy, please read this form in its entirety. You need to be fully educated on the state and federal guidelines for reimbursement services.

The Centers for Medicare & Medicaid Services (CMS) **"Screening Initiatives"** passed in January, 2011 dictates that patients undergoing a **"screening colonoscopy"** will not be held to their coinsurance or deductible responsibilities.

The definition of a **"screening colonoscopy"** per CMS guidelines is as follows:

*"A colonoscopy being performed on a patient who does not have any signs or symptoms in the lower GI anatomy PRIOR to the scheduled test."*

Any symptom such as change in bowel habits, diarrhea, constipation, bleeding, anemia, etc. prior to the procedure and noted as a symptom in your medical record may change your benefit from a screening to a diagnostic colonoscopy. We cannot change your medical record after you have been seen. We cannot change the fact that you have had symptoms prior to your procedure.

**Please note:** If you have had a colonoscopy within the last 10 years and the result indicated you had colon polyps, you may **NOT** be eligible for "screening initiative" benefits. You have a prior history of polyps. Your colonoscopy is now considered a "surveillance of the colon" and may be considered diagnostic. You may have been healthy and have had no symptoms since your last colonoscopy, but you have what is considered a pre-existing nature of polyps and therefore, are not eligible for a "screening". If your colonoscopy has been over 10 years, you are eligible for a "screening colonoscopy" regardless of your history. ***It is your responsibility to know your insurance benefit. Please contact your insurance company with benefit questions prior to your procedure.***

Please be advised that if you are a true "screening colonoscopy" and during the procedure your doctor finds a polyp or tissue that has to be removed for pathological testing or if you are diagnosed with a GI problem, the procedure is no longer a "screening" but becomes "diagnostic". Please be aware that any polyp that is found may be pre-cancerous and must be removed. Your insurance benefits may change. We make every effort to code correctly for your procedure with the correct modifiers and diagnoses. We make every effort to work with the facility to have the billing coded correctly, as well. The correct coding of a procedure is driven by the physician and your medical history. It is not dictated by your benefit or the insurance company.

*\*These guidelines are CMS requirements and DHA providers are unable to make exceptions.*

## **“No Show” Policy For Office Visits & Procedures**

We understand that situations arise in which you must cancel your appointment. It is therefore requested that if you must cancel your appointment you provide adequate notice. This will enable another person who is waiting for an appointment to be scheduled in that appointment slot. With cancelations made less than 24-48 hours notice, we are unable to offer that appointment slot to other people.

- Patients who fail to show for their scheduled office appointment or do not notify the office within 24 hours of their scheduled appointment time, shall be subject to a “No Show” penalty of \$50.00. In the event of an actual emergency and prior notice could not be given, consideration will be given - and an exception may be granted.
- Patients who fail to show for their scheduled procedure appointment or do not notify the office within 48 hours of their scheduled appointment time shall be subject to a “No Show” penalty of \$150.

We understand that special unavoidable circumstances may cause you to cancel within this time frame. Fees in this instance may be waived but only with management approval.

Please sign that you have read, understand, and agree to this “No Show” Policy.
